

## INTRODUCTION

Here at Cobra Kayaks, we make sit-on-tops that are synonymous with stability, speed, ease of use and good looks, but most of all though, they are just plain fun. All of us are passionate about paddling and this is reflected in every model we produce.

We offer a broad spectrum of quality kayaks for every use from calm water touring, family outings, wave surfing and kayak fishing, with everything in between as well. We feel that taking the extra time with each of our kayaks, as well as our accessories, to do things right, ensures years of carefree use for our devoted customers. In fact, we're so sure of our quality that we offer a Lifetime Warranty on all Cobra products.

We don't want to be the biggest kayak manufacturer... just the best. Cobra Kayaks encompasses over 30 years experience with rotomolding water sports products, and the Super Linear Polyethylene we use in production is the best kayak material on the market; lightweight, super strong, very fast through the water, UV resistant and easily repairable. Additionally, we produce our own innovative watertight hatches designed to fit the shape of our kayaks, as well as paddles, seats, tie-down straps, and much much, more.

So look over our complete line of kayaks and optional accessories. Whether you want to exercise, fish, dive, race, tour, surf, cruise or just play, there is a Cobra model for each one and everyone of you with your name on it.

## COBRA QUAD

Cobra Kayaks introduces a totally unique concept in sit on top kayaking. The Cobra Quad is the only rotomolded open deck kayak that will accommodate up to four paddlers at once. With the increasing popularity of adventure racing, the Quad fills a niche for three and four person team paddling, and has already been selected as the boat of choice for some upcoming, top caliber team races. Outdoorsmen will find the Quad equally well suited for fishing, diving and hunting. For recreational paddling, families now have a way to enjoy a day on the water together without leaving anyone waiting their turn on the beach.

Length: 5.64m  
Width: 91.44cm  
Weight: 49.90kg  
Capacity: 476.28kg  
Materials: Super Linear Polyethylene  
Includes: Handles & Eyelets & Drain plug

## COBRA STRIKE

The Cobra Strike is a radical surf machine designed to ride waves. It is forgiving for novices, challenging for intermediates and it totally rips for experts. The Cobra Strike has two revolutionary built-in ridges running lengthwise underneath along the rail that increase speed and improve turning. Its low volume reduces drag and the slim, narrow profile and exaggerated rocker increase mobility. The Cobra Strike has a two position adjustable foot plate with foot straps to adapt to paddlers' leg lengths.

Length: 2.92m  
Width: 68.58cm  
Weight: 15.42kg  
Capacity: 104.32kg  
Materials: Cotene Linear Polyethylene

## COBRA EXPLORER

We think that our Cobra Explorer is as close as you can get to the perfect all purpose boat. Stable and fast with superb tracking, it is versatile for all sizes, shapes and varying expertise of the majority of the paddlers.

An oversized external rear tank well holds all types of sport gear or picnic supplies. For fishing and camping there is a flush foredeck with plenty of space for a large storage hatch. The Cobra Explorer is a totally self-bailing kayak, providing for a dry ride.

Length: 3.42m  
Width: 78.74cm  
Weight: 19.50kg  
Capacity: 181.44kg  
Material: Super Linear Polyethylene  
Includes: Handles & Eyelets & Drain plug

## COBRA FISH 'N' DIVE - XF

The Fish'n'Dive XF features a newly designed Tank well, which in addition to still securely holding a marine battery for a trolling motor, now also features a custom designed tray to hold bait buckets in place. Additionally, there is now added space for rear flush mount or surface mount style rod holders. The Fish'n'Dive XF features additional forward mounting areas for trolling rod mounts, rear facing rod mounts for jump seat user or accessories such as net and gaff, and widened foot wells for great paddling comfort.

Length: 3.82m  
Width: 91.44cm  
Weight: 27.22kg  
Capacity: 272.16kg  
Material: Super Linear Polyethylene  
Includes: Handles & Eyelets & Drain plug

## COBRA TANDEM

Lighter weight than other tandems on the market (only 60 lbs) the Cobra Tandem is easier to maneuver than the Cobra Triple. This model offers users the opportunity to socialize while paddling. The Cobra Tandem also is competitively priced and thus offers exceptional value.

The top deck design allows for both a forward and rear seat. With deck space for up to five storage hatches, there is plenty of room to stow cargo.

Since it is lightweight, it is more manageable than other tandems and can easily be loaded on top of the car.

Length: 3.82m  
Width: 91.44cm  
Weight: 27.22kg  
Capacity: 272.16kg  
Material: Super Linear Polyethylene  
Includes: Handles & Eyelets

## COBRA TOURER

Designed as a performance sit-on-top touring kayak, the Cobra Tourer is slightly more forgiving than the Cobra Expedition. This boat is designed for the athletically inclined paddler who wants to go from Point A to Point B with maximum efficiency and speed. Its versatility makes it an ideal choice for training, long distance sight-seeing or touring on moderate ocean swells, lakes and rivers. This kayak has it all, even an adjustable leg length rudder system. The low profile hull of the Cobra Tourer cuts down on windage, enabling paddlers to maintain high speed and straight tracking with easy handling in all conditions. The integrated keel provides stability and efficiency holding a straight course even in choppy water. It incorporates a large dive tank well for easy accessibility and extra storage.

Length: 4.55m  
Width: 71.12cm  
Weight: 22.68kg  
Capacity: 215.46kg  
Material: Super Linear Polyethylene  
Includes: Handles & Eyelets & Drain plug

## COBRA TRIPLE

This is the first ever sit-on-top that is big, sturdy & stable enough to accommodate three adults paddling simultaneously as well ample supplies of heavy diving and long range fishing gear. The Cobra Triple answers a request from coed Adventure Teams for a kayak that allows them to combine all their power into one boat. The versatility of the Cobra Triple is not lost on parents who want to share their paddling experience with their children. And there is even more room for the family dog! The Cobra Triple V-hull with its wide beam provides for excellent tracking and extra stability. The narrow bow and stem, coupled with clean lines, lets paddlers slice through water quickly and smoothly. The combination of these design elements helps paddlers shed waves and remain on a straight course.

**Length: 5.03m**  
**Width: 91.44cm**  
**Weight: 36.28kg**  
**Capacity: 385.56kg**  
**Material: Super Linear Polyethylene**  
**Includes: Handles & Eyelets & Drain plug**

## COBRA ELIMINATOR

The Cobra Eliminator redefines the word fast. It has the sleek look and feel of an Olympic style K1 and the durability provided by Super Linear Polyethylene construction. It is not only designed for racing but for the use and abuse that is part of competition training, high performance exercise and youth racing programs.

A foot-operated rudder provides for easy, controlled turning and an adjustable footrest and seat provide an ergonomic fit.

The deck shape enhances correct paddling technique by allowing the entry blade hand to come close to the deck at the beginning of the stroke.

Special tip for the competitors: the Cobra Eliminator's fast look will give you a psychological advantage!

**Length: 5.03m**  
**Width: 58.42cm**  
**Weight: 10.05kg**  
**Capacity: 108.86kg**  
**Material: Super Linear Polyethylene**  
**Includes: Adjustable seat, adjustable foot pedals and rudder system, Handles & Eyelets & Drain plug**

## COBRA EXPEDITION

At 18 feet long, the Cobra Expedition is designed to go fast. It is built to accelerate quickly and get to its top speed in a short period of time. This boat has lots of storage and is ideal for any paddler interested in performance touring, sea kayaking and long distance cruising.

A high level of paddling efficiency enables Cobra Expedition paddlers to travel longer distance in a shorter time with less physical effort.

The long narrow waterline allows the hull to slide easily, quickly and smoothly through the water with minimal effort. The low profile deck is a unique feature for a sit-on-top and greatly cuts down windage. A V-shaped keel and an adjustable leg length rudder system provide improved tracking and stability.

**Length: 5.46m**  
**Width: 59.69cm**  
**Weight: 21.77kg**  
**Capacity: 192.78kg**  
**Material: Super Linear Polyethylene**  
**Includes: Handles & Eyelets & Drain plug**

## COBRA ESCAPE

The Escape is the perfect sit on top kayak to throw in the water at a moment's notice for a paddle, a float, a quick fishing trip, or a sunset. Perfect for women, children and average size men.

The Escape can be outfitted with Cobra's large "A" style hatch, as well as our 10" round hatch, and has plenty of space for rod holders on the side rails as well as gear and accessories in the tank well.

All in all, the Cobra Escape is a knock out of a kayak for smaller, lighter paddlers. Extremely stable to paddle, yet nimble and easy to handle and maneuver. The Cobra Escape provides all the features of the kayaks, in a package small enough for anyone to use and appreciate.

**Length: 3.18m**  
**Width: 78.74cm**  
**Weight: 15.42kg**  
**Capacity: 108.86kg**  
**Materials: Super Linear Polyethylene**  
**Includes: Handles & Eyelets & Drain plug**

## COBRA Marauder XF

The Cobra Marauder XF is a Pure Performance Fishing Kayak from every angle and offers excellent initial and secondary stability as well as a super silent hull design for stealth paddling around easily spooked fish. Ample Rocker provides maneuverability and smooth paddling as well as stability during surf launches and landings, yet the keel design and tracking channels in the hull make for excellent tracking. Add that to a user friendly deck design that offers you more than enough options to truly customize the Marauder XF to fit the way YOU want to fish and you'll see why the Marauder XF is raising the bar on what a Fishing Kayak should be.

## COBRA RE-VISION

The Cobra Re-Vision was originally designed as a surf rescue craft and is, in fact, the “long board” version of the Cobra Strike. The Re-Vision features a large open cockpit and a unique overlap flange allowing for both a drier ride and an improved hold on waves. The rocker design and unique flange combines for excellent wave riding, while the sleek hull design allows for a fast, smooth quiet ride on flat water.

Length: 3.97m  
Width: 68.58cm  
Weight: 21.32kg  
Capacity: 136.08 Kg  
Materials: Super Linear Polyethylene  
Includes: Fin, Handles & Eyelets & Drain plug

# COBRA Navigator XF

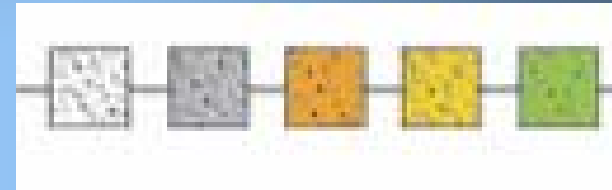

This all-around kayak incorporates many of the same features as the time-tested and performance proven Cobra Explorer, but is faster and sleeker, with a bit more length.

The Cobra Navigator XF, with its longer cockpit, is perfect for taller paddlers and anglers who are looking for the features of a larger kayak, but still want the manoeuvrability and ease of use of a smaller boat, all while maintaining stability, speed and tracking. The Navigator XF can be outfitted with Cobra's large "A" style hatch, as well as our small rectangular hatch and has plenty of space for rod holders on the side rails as well as gear and accessories in the tank well.

Length: 3.82m  
Width: 78.74cm  
Weight: 21.32kg  
Capacity: 204.12 Kg  
Materials: Super Linear Polyethylene  
Includes: Handles & Eyelets
