Treco

Oldfields Treco is an Australian manufacturer of steel outdoor storage solutions. Based in Sydney Australia, Treco manufactures a large range of garden sheds, workshops, utility sheds, aviaries, pool filter covers and space saver ranges.

Treco Garden Sheds have been manufactured in Australia since 1967. They were the first kit form shed manufactured in Australia. Since its inception, Treco has been synonymous with quality and strength. Oldfields Treco is successful in both the domestic and overseas markets.

• **CORROSION PROTECTION:**

Your choice from Zinc and Painted models.

VENTILATED GABLES:

10 YEAR WARRANTY:

Prime materials ensure your investment. Conditions apply.

• **GABLE OR SKILLION:**

Both options give more headroom and allow rainwater to run away to the sides.

• **EASY TO ASSEMBLE:**

Easily identified pre-punched components. Step-by-step instruction manual.

A screw together design for maximum strength due to permanent fastening.

Design allows for replacement of panels at any time in case of damage.

No bolt down brackets required to ensure ease of installation.

• **WRAPAROUND CORNERS:**

Provide added strength and weather protection.

• **DOUBLE SLIDING DOORS:**

Slide from the inside for increased security and strength. Provide greater access while at the same time letting in more daylight.

• **ENTRY & EXIT RAMP:**

Reinforced to withstand wheel barrows, farmbikes or your ride-on mower.

• **FULL STRUCTURAL FRAME**

EASILY TRANSPORTABLE

GARDEN SHEDS

Oldfields Treco manufactures 2 ranges of garden sheds. These ranges have been developed according to the needs of the two different customer bases we service.

The Platinum Range has been developed for our Mass Merchant customer base and small retail outlets. These sheds are primarily cash and carry sheds.

GARDEN SHEDS

The Premium Range has been developed in accordance with the needs of the specialist retail outlets. These customers require a very large, diverse range of products to satisfy the endless different requirements customers have. This range also allows customers to individualise their shed. It has been developed with sizes, colour and the ability to stock a complete range at all times.

GREENHOUSES

EASY TO ASSEMBLE:

Innovative PUSH & FIT Rion Connectors enable you to build the greenhouse yourself, saving time & money.

PVC MODULAR STRUCTURE:

The modular nature of the greenhouse allows you to decide which size suits you. The PVC framework means the greenhouse is corrosion free.

TWIN WALL POLYCARBONATE Characteristics of:

Light Transmission: Greater light transmission compared with all other covering materials.

Diffused Light: Transmission haze is superior to single wall polycarbonate. It greatly reduces light being radiated directly onto plants and minimises shadows, encouraging uniform growth.

Thermal Insulation: Superior thermal insulation with an R factor of 1.38. This reduces energy loss during winter 50% more than single wall polycarbonate.

SAFE, STURDY & DURABLE:

Polycarbonate is extremely strong, safe and will not shatter or break like glass. Combined with PVC profiles, the construction characteristics allow the structure to be wind resistant and hold up to 500kg of snow.

PROFESSIONAL GREENHOUSES

Designed for enthusiast grower, the professional greenhouse offers double doors and extra space for both grower and plants.

Features:

- The attractive barn-shape design gives more headroom and growing space.
 - Available in Forest Green
 - Available in several lengths.

HOBBY GREENHOUSES

Features:

- The attractive barn-shape design gives more headroom and growing space.
- Available in Forest Green
- Available in several lengths.

MINI GREENHOUSES

Get all of the benefits of the Rion Greenhouse in this convenient, cost effective, portable structure. Ideal for extending the growing season in the spring and autumn! Plus, their compact size allows them to be placed on decks or patios.

ACCESSORIES

Skylights: are easily installed on any garden shed by simply replacing a roof panel.

Windows: made of Perspex. The window can be fitted to any garden shed.

Shelving: we have 2 types of shelving available:

Corner shelves made of galvanized steel, available in either single or set of 3 and can be fitted to any garden shed.

Hammer fast shelving units this shelving simply requires a hammer for assembly; no nuts and bolts are required. Also the shelves are adjustable to any height.
