

PGF Golf

SINCE 1932

MADE FOR AUSTRALIA
BOLD TO THE WORLD

PGF Golf – Since 1932

PGF is Australasia's longest standing specialist golf manufacturing company, having been founded in 1932. Originally known as East Brothers and then Precision Golf Forging, PGF has continued to dominate the Australasian golf market.

Australasia's rich culture in golf continues and PGF is active in encouraging young golfers of today to follow in the footsteps of the past champions.

Indeed, a number of former and present world champion golfers had close connections with PGF.

PGF Golf – What are we about ?

We at PGF are committed on selling performance, innovation, technology and great value.

Performance gained from precision product by improved technology and results, delivered with superior service and support.

Utilising the latest design technology and materials available to product development.

Innovation via a dedication to developing new concepts, design initiatives and approaches to the game of golf.

PGF Golf – design and development leadership

Throughout the World, golf professionals and amateurs alike have come to appreciate the many advanced technical features and design innovations which have given PGF an enviable reputation in the golf industry.

Founded in 1932, Precision Golf Forging as it was originally known has been associated with the manufacture of high quality golf equipment for nearly 75 years.

Understandably we are proud of our leadership in the design and development of fine golf equipment. It's a tradition based on many years of experience and professional craftsmanship. Over these years PGF has grown to its current influential position in the golf industry.

PGF Golf - Products

PGF offers a large choice for in clubs, putters, fairways, hybrids, Irons, and products for woman and juniors.

They also provide accessories and all you need for playing golf in the best conditions, like luggage, gloves, buggies...

All the products are made with wondering for quality.
